

Laute entdecken und bestimmen

Vorbereitung:

Um DIN-A5-Arbeitskarten zu erhalten, wählen Sie bitte folgende Druckereinstellung:
DIN A4 - Hochformat - 2 Seiten pro Blatt.

Falls Sie die Bilder mit dem Tellimero oder Anybook Reader vertonen möchten, können Sie das vor dem Laminieren tun.

Anschließend laminieren Sie die Karten mit DIN-A4-Laminierfolie und schneiden sie in der Mitte durch.
Die Karten können nun mit einem wasserlöslichen Marker beschriftet und immer wieder verwendet werden.

Aufgabe:

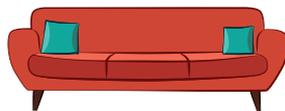

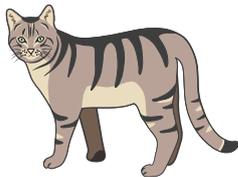

Die Kinder schauen sich die Bilder an und sprechen die Wörter laut vor.
Dann bestimmen sie, an welcher Stelle sie den gesuchten Laut hören und kreuzen die Position an.

Bei Kindern mit geringen Deutschkenntnissen empfiehlt es sich, den Kindern geübte Sprecher an die Seite zu stellen oder die Wörter auf einem Audiostift zu speichern.
